

Miss Jayran Zebardast

**Mob:** +98 (0)912 2972566

**E-mail:** jayran.zebardast@gmail.com\_ **Date of Birth:** 28th Aug 1981

**Education:**

---

**Education:**

**Oct 2017 – Present**

**Institute of Cognitive Sciences Studies, Tehran, Iran.**

**Course Title:** Candidate Ph.D. Cognitive neurosciences linguistics.

**Feb 2013 – Sep 2017**

**Tehran university of medical sciences, Virtual school, Tehran, Iran.**

**Course Title:** M.Sc. planning in electronic learning in medical education.

**Oct 2000 – Sep 2004**

**Tehran university of medical sciences, Nursing and midwifery school, Tehran, Iran.**

**Course Title:** B.Sc. of Science in Nursing

**Current Occupation:**

---

**October 2021 – present**

**Tehran University of medical sciences, Tehran, Iran.**

**Position:** Researcher at Advanced Diagnostic and  
Interventional Radiology Research Center (**ADIR**);

**Duties:**

- The objective of this research is to identify the neural correlates of cognitive processes such as attention, memory, decision-making, and language processing, using techniques such as functional magnetic resonance imaging (fMRI)
- **Mimics software for image segmentation**
- **Image process analysis with FSL**
- **Deep and machine learning**

## Areas of Interest:

---

Autism pediatrics ,Cognitive and psychology, ADHD, Depression, Psychological disorders, Illnesses, Cognitive linguistic, Neural networks, complex systems and interactions, FMRI evaluation by FSL or MATLAB, Meta-cognitive skills training, python, dep and maschi learning.

## Work Experience:

---

### **Feb 2004 – Apr 2010**

Special nurse in emergency department, Tehran University of Medical Sciences, Tehran, Iran.

### **Jun 2010 – sept 2015**

Patient education hospital supervisor for emergency department and Supervisor at nursing department belonging to Tehran University of medical sciences, Tehran, Iran;

### **October 2011 – October 2021**

**Tehran University of medical sciences**, Tehran, Iran.

**Position:** Researcher at deputy affairs & Development;

#### **Duties:**

Design a research plan: identify the need or problem, define the objective and target population, draw up research protocol;

Apply research protocol: obtain the consensual participation of the subject, data analysis, interpret data and analyze results.

### **October 2021-present**

**Tehran University of medical sciences**, Tehran, Iran.

**Position:** Researcher at Advanced Diagnostic and Interventional Radiology Research Center (**ADIR**);

#### **Duties:**

- The objective of this research is to identify the neural correlates of cognitive processes such as attention, memory, decision-making, and language processing, using techniques such as functional magnetic resonance imaging (fMRI)
- **Mimics software for image segmentation**
- **Image process analysis with FSL**

➤ **Deep and machine learning**

**Research & Publications:**

---
