

Curriculum Vitae

Personal Data:

Name: Amir Hossein Jalali

Date of Birth: 1972/5/24

Place of Birth: Tehran, Iran

Marriage status: Married

Nationality: Iranian

Address: Advanced Diagnostic and Interventional Radiology Research Center (ADIR), Imam Khomeini Hospital, Tehran University of Medical Sciences, Tehran, Iran

Telephone: Imam Hospital, Medical Imaging Center: +98 21 66581579

Fax: Imam Hospital, Medical Imaging Center: +98 21 66581578

E-Mail: amirjalali51@yahoo.com

Education:

- 1991-1998: MD Degree from Medical School, Kermanshah University of Medical Sciences
- 2014-2019: PhD degree in Medical Genetics, Tarbiat Modarres University

Work Experiences

Researcher, Trauma Research Center, Baghiat Allah Hospital, Tehran, Iran. 2002-2004.
Researcher,

Research Manager, Advanced Diagnostic and Interventional Radiology Research Center (ADIR), Medical Imaging Center of Imam Hospital, Tehran University of Medical Sciences, 2004 up to Now.

Referee of Iranian Journal of Radiology

Papers

Research Projects

1) Evaluation of Efficacy and Side Effects of Uterine Fibroid Embolization.

2) Clinical trial to evaluate the therapeutic effects of CT-guided intraarticular steroid, Bupivacaine and Bicarbonate injection followed by physical therapy, compare with just intraarticular injection and physical therapy alone in dysfunctional sacroiliac joint pain.

3) Comparison of absorbed dose of ovaries during Uterine Artery Embolization (UAE), with conventional DSA & Flat Panel angiography system.

Assessment of frequencies of angiography findings in SAH patients.

Evaluation of the safety and efficacy of peri root therapy (PRT) in low back pain(LBP)

Assessment of success rate of laser therapy in osteoid osteoma patients.

Evaluation of the efficacy and complications of embolizations for the treatment of brain arteriovenous malformation(AVM).

Diagnostic Accuracy of Magnetic Resonance Imaging, including Non-Echo-Planar Diffusion-Weighted Sequence, in the Detection of Middle Ear Cholesteatoma in Iranian Patients.

Comparison of the diagnosis sensitivity of brain abscess cystic lesions from non-abscess ones in three imaging modality of conventional MRI, MRS and DWI of three tesla apparatus 2.

Comparison of the diagnosis sensitivity of brain gliomas in two imaging modality of MRS and DWI of three tesla apparatus.

Determination of white matter and gray matter integrity in neuromyelitis optica and their clinical correlates.

Comparison of the Magnetic Resonance Spectroscopic Imaging findings in non-enhancing lesions in relapsing-remitting and primary progressive multiple sclerosis.

Evaluation of Sensitivity of MR Perfusion in Brain Gliomas.

Investigating the sensitivity and specificity of MRI perfusion in brain gelial tumor grading in the patients of Imam Khomeini hospital of Tehran2012(ongoing)

Evaluation of sensitivity and Specificity of MRS and DWI (using MRI 3T)for grafing glial tumors in comparison with pathologic staging2012(ongoing)
